

## Shipping outside EU

The system calculates the transport costs based on the volume weight in your shopping cart. Shipping costs to a non-EU country vary by country and city. Should the price change due to the delivery country, we will inform you by email. All prices are net without VAT.

Orders that are shipped to countries outside Germany may be subject to import taxes, customs duties, and fees. They will be incurred once the shipment reaches the delivery country. Additional charges for customs clearance must be paid by the recipient. We have no control over these charges and cannot predict how high they are. Customs policies vary depending on the country. For further information please contact your local customs office. When customs clearance procedures are required, delays may occur that exceed our original supply estimates..
